

## **TECHNICAL REQUIREMENTS**

### **THE DOO-WAH RIDERS**

**In order to facilitate a successful performance, please ensure the following guidelines and items are provided and ready upon the artists' arrival at the school.**

**Staging:** A secured and clean performance area a minimum of 20' X 20' is required for the performance. A stage is not required but students should be able to see. Portable stages must be safe and securely installed. Performance surface must be stable and even without any nails. Artists bring their own sound system.

**Performance can be held outdoors however, artists must have access to power.**

**Artist Needs:** Access to an electrical outlet  
Five bottles of water per show  
Three parking spaces near the performance area for unloading

**The artists arrive approximately 1 hour before the performance to set up. When the artists arrive, a representative from the school should be on hand to greet and direct them to the performance area.**

**It is important that assemblies begin promptly at scheduled times. Arts Teach artists often have performances immediately following at other locations. Performances that begin late due to school delays may result in cancellation. Please have students arrive at least 5 minutes before the performance start time to ensure ample time for performers to complete their entire program. A maximum of 350 students is recommended per assembly.**

**Teachers set the example for students and strongly affect their behavior at the performance. To encourage maximum learning and program effectiveness we ask that teachers actively participate in the assemblies and refrain from grading papers or doing other work during the performance. Your cooperation is greatly appreciated.**

**Please let us know if there is anything we can do to assist your school/organization in this arts experience.**

**THANK YOU!**
